

**Deciding  
With  
Support**

# Worksheet: The person's decisions in PBS

Completed by:

Name:

Date:

This worksheet can be used to document a person's involvement in decision-making across PBS process (and support your accountability towards the co-production of their PBS plan). In addition to this worksheet, you can also record their involvement in the Person with Disability's 'I am here as a person with disability – Worksheets'.

When considering opportunities for supported decision-making to occur, refer to 'Key decision-making opportunities in behaviour support'.

Remember, each person's involvement in decision-making will be different (i.e., in when and how). You will tailor the process to each person, being responsive to their unique needs and preferences.

**Tick each process the person has been involved in and record how they have been involved in decision-making:**
